University of Travnik

University of Travnik (UNT) is the first and oldest private university in the area of Central Bosnia Canton. It was founded on the basis of current legislation supported by the Ministry of Education, Science, Culture and Sport of Central Bosnia Canton. Activities of the University of Travnik began in 2006 through establishment of faculties that, are still part of the University. In September 2010, the University completed the process of integration and became one of only a few institutions of higher education that succeeded in fulfillment of legal provisions in the field of higher education in BiH.

The University of Travnik is home to the following faculties/organizational units:

- Faculty of Management and Business Economics
- Faculty of Law
- Faculty of Education
- Faculty of Technical Studies
- Faculty of Pharmacy and Health

Considering high criteria and standards applied to studies in accordance with provisions of the Bologna Declaration, University of Travnik aims to provide effective education and the highest possible quality of the learning process and teaching, scientific research, education of youth and their involvement in education and research, encourage mobility, and transfer knowledge and technologies onto the economy and society in general.

Students are thus provided the state of the art study conditions in the new, functionally equipped facilities located in Travnik and Kiseljak, including classrooms with modern teaching aids, amphitheatres, rooms with internet connection, library, reading rooms, student canteens and restaurants, recreational facilities and others. University of Travnik ensures a sufficient number of highly qualified academic staff who are experts in various scientific fields. Administrative and other departments of the University, as an integral part of a successful realization of basic educational activities, are always available to students and academic staff.

Scientific Research and Research are the foundation of the quality of teaching at the University and is its inseparable unit, representing the fundamental right and duty of the academic staff.

University of Travnik recieved the prestigious award and plaque as the best university in Bosnia and Herzegovina

In order to improve the quality of studies and internationalization of the University within its scope of activities, special attention is given to development and coordination of international cooperation activities with partner universities worldwide, institutions and organizations whose activities are related to the field of higher education and research. In this context, the University regularly establishes bilateral agreements and takes part in international projects in the field of higher education and research, as well as promotes all aspects of mobility.

In addition to the educational process, the University establishes cooperation with public institutions and organizations, businesses enterprises, local communities, social, cultural and sports associations and other. Therefore, modern educational facilities and faculty study programs that meet requirements of the Bologna process are the main reasons for confidence and trust given by a large number of students.

Intercultural evening

Student humanitarian projects

University of Travnik students are offered three study cycles, as follows:

- The first cycle (undergraduate study)
- The second cycle (master study)
- The third cycle (doctorate study)

All three study cycles are performed continuously and are articulated as a complete and well-rounded education. Study programs follow modern scientific trends and scientific knowledge and are fully adapted to current developments in labour markets.

University of Travnik is a dynamic institution that systematically encourages mobility and development of research careers, while on the other hand allows the expression of talent and active energy of each person separately.

*Future students,
if you decide to study at one of our faculties,
we are confident that we will meet all your expectations.*

Accreditation of the University

University of Travnik is in its mission committed to assurance and development of quality of higher education at all organizational units of the University. The system is set up in a very unique and exceptional way in order to ensure and improve quality, where teamwork is the basic principle. University Management has adjusted the complete concept of higher education activities to students, their needs and expectations, where students, while participating in implementation of all higher education activities, are an equal partner regarded as a participant in the educational process at the higher education institution with interactive participation in all areas of its activities. The student is at the center of all activities and feedback is established in process where all participants have the same goal – to improve higher education. Students are involved in decision-making processes through their representatives in the bodies of the University and have equal status in relation to other members of the bodies.

Acting according to formal procedures, University of Travnik completed the process of external evaluation. Expert Panel of national and international experts that perform evaluation and quality review, and give recommendations for accreditation of the University of Travnik found that University of Travnik meets all requirements for full accreditation and, consequently, gave its opinion and recommendation – to accredit the University of Travnik.

*Expert Panel visited
Faculty of Education*

*Expert Panel visited
Faculty of Technical Studies*

During the accreditation process University of Travnik demonstrated an absolute dominance in presentation of fulfilment of criteria that were subject of external evaluation. Physical and human resources, that were put at disposal of the realization of high-quality curricula of study programs and established procedures with the goal to educate future experts of disciplines taught at the University, are presented in the spirit of transparency and openness to the public.

Quality Board at the University level, which was presented with a total of 80 members divided into 11 teams revealed an enviable system of organization, coordination and unique modality that is represented in all organizational units.

The recommendation of the Expert Panel for accreditation of the University confirmed the results of self-evaluation report and an upward trend in student enrollment at the University of Travnik, which clearly indicates that the University of Travnik has become a recognized higher education institution, affirmed in the academic community of Bosnia and Herzegovina.

Faculty of Management and Business Economics

Faculty of Management and Business Economics of the University of Travnik is the first private faculty in the area of Central Bosnia Canton, which was founded in 2006, and today is the largest private faculty in Bosnia and Herzegovina. The mission of the Faculty is to prepare university qualified economists and managers for future careers during which they will be capable to, as leaders in their organizations, make a significant and lasting contribution to the modern society development. The aim of the Faculty is to provide future business elite of Bosnia and Herzegovina and the region with contemporary knowledge through methods and techniques applied at European university centers.

Faculty of Management and Business Economics is a perfect blend of professional, modern, and recognized education and training in order to secure success and advancement in business and career since the Faculty of Management and Business Economics has the most modern concept of education. Faculty curricula are in accordance with the principles of the Bologna Declaration, the introduction of the European Credit Transfer System (ECTS) and are aligned with the needs of the labor market.

Organization of studies

The higher education system is structured according to three cycles, in line with the guidelines of the Bologna Process. Study programs are designed in a way that theoretical knowledge is complemented by practical acquirement of skills.

First (I) Cycle – Undergraduate/Bachelor degree lasts three or four academic years and it is organized through following programs:

- General Management (3+2)
 - Business Economics (3+2 or 4+1)
 - Banking and Insurance Management (3+2)
 - Business Informatics (3+2)
 - Tourism and Catering Management (3+2)
 - Business Psychology (3+2)
- 180 or 240 ECTS credits

Upon completion of the first study cycle, students receive a Bachelor degree with indication of relevant specialization.

Second (II) Cycle – Graduate/Master degree lasts one or two academic years and students can select from one of the following programs:

- General Management (3+2 or 4+1)
 - Financial Management (3+2 or 4+1)
 - Business Economics (3+2 or 4+1)
 - Business Psychology (3+2 or 4+1)
- 60 or 120 ECTS credits

After completion of the second study cycle students receive a Master degree in Management and Business Economics with indication of the scientific field.

Third Cycle (III) – PhD Program lasts three academic years and is organized through following programs:

- General Management
- Business Economics
- Quantitative Economics
- Business Psychology

180 ECTS credits

After the completion of the third study cycle students are awarded a Doctorate degree in Management and Business Economics with indication of the scientific field.

Faculty characteristics

The new building of the Faculty is located in the immediate vicinity of Sarajevo, only 15 km away from the city center. It built in accordance with the highest European standards and has a large number of classrooms, lecture halls, amphitheatres, teachers' offices, staff rooms, computer center, and large reading room with a big library fund, students' restaurant and many other facilities.

Faculty of Management and Business Economic is especially known for: a high degree of interactive lectures supported by a modern IT and audio-video technology, participation of local and foreign lecturers in study cycles, small group workshops, practical skill acquirement through cooperation with a large number of industrial and civil organizations, cooperation with domestic and foreign academic institutions, administration focused on providing quality services to students, etc.

The focus of all activities is on students who are provided with high quality of education and continuity in their personal development.

Faculty organizes scientific and professional symposiums aimed at proposing solutions for current economic and business issues. Lecturers at the Faculty have the opportunity to engage in scientific work, so their scientific papers can be published in the indexed journal "University Chronicle".

In addition to publishing scientific papers, lecturers that are involved in the teaching process at the Faculty of Management and Business Economics are authors of many economic, management and organization books, and thus they contribute to the development and improvement of the economic thought.

Students, as well as lecturers, have the opportunity to engage in activities of the Institute for Economic Research at the Faculty of Management and Business Economics, and thus to contribute to the development of economic science.

Faculty of Law

Since its foundation in 2006 to this day Faculty of Law is in a constant state of advancement in the field of innovation of the educational and scientific process. Its interdisciplinary study program is based on the Bologna principles for the 1st, 2nd and 3rd cycles of study, implementing the European Credit Transfer System (ECTS). The Academic year consists of two semesters (one in the winter and one in the spring) and it commences in October each year. No entrance exam is needed to study at the University of Travnik Faculty of Law. Given the fact that the Faculty has fully integrated Bologna principles, their application demands that teaching takes place in an adequate space (depending on the total number of students) and this too has been implemented. The building of the Faculty is brand new, equipped with all kinds of modern amenities, from spacious, well-lit classrooms, technical equipment, a cantina, and ample parking, including an excellent library with over 6200 available books and textbooks. The Faculty has all the necessary IT equipment, a computer room, access to broadband Internet and other high technology services. This does not represent an end to the investments into staff and physical resources, as further investments are planned in the time to come.

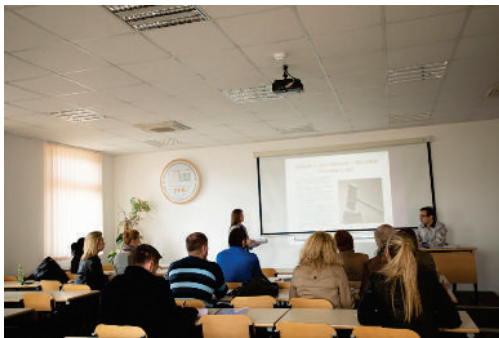

Organization of studies

Classes have an interactive character and are performed in accordance with Bologna principles. The study material is presented to students in a very clear way through communication during lectures and exercises, and availability of literature and information. Staff consists of eminent experts in their fields, Doctors of science, Masters, noted jurists, former students that were top of their respective classes, active scientists and scientific workers who follow and participate in scientific research and participate in numerous conferences, seminars and further educations.

Students who complete their studies at the University of Travnik Faculty of Law become sought after staff, employed throughout Bosnia and Herzegovina and abroad, and continue their education at the Master and Doctorate studies. One of the tasks of this Faculty is to provide practical experiences to students and to ensure as much employability as possible during and after their studies.

Aside from lecturing held by the academic staff, the Faculty also hires business and practice experts that transfer their practical experience and knowledge in such a way as to enable students to, upon completion, be fully capable to apply the knowledge they have acquired in practice. This is performed, additionally, through study visits to key institutions such as the Court of B&H, Prosecutors Office of B&H, Canton courts, the Institute for Intellectual Property of B&H, Penitentiaries and other institutions.

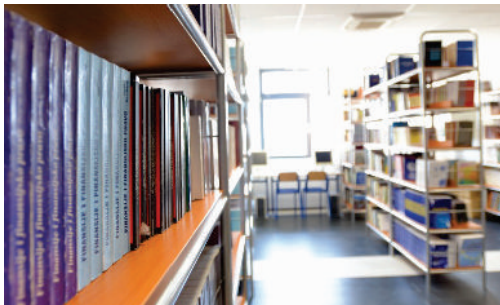

Exams and grading at the Faculty of Law of the University of Travnik are done according to Bologna principles (continual evaluation, use of midterms, attendance, written assignments, activities and other) in scheduled allotments: January-February, June-July, and September (Final exams and make-up only).

The Faculty of Law applies the 3+2 and 4+1 study models, as is expressed by the ECTS points the student acquires, which are as follows:

- 1st cycle of study earns the title of Bachelor with a total of 240 ECTS points (4+1), or 180 ECTS points (3+2).
- 2nd cycle of study earns the title of master (with an indication of a focus field of study) with a total of 300 ECTS points (240+60 and 180+120).

The Faculty offers a "3+2+3" and a "4+1+3" model of study consisting of a three- or four-year oriented program with four majors. Upon a successful completion of a three year program, the student has an option to continue the studies by requesting admission to the Master program that lasts two years - 120 ECTS credits (three semesters of class and one semester for writing thesis). The admission to the Master program can also be gained by those students who have completed a four year course of study, and for these students the master program lasts two semesters (one academic year) and bears a total of 60 ECTS points.

At the Faculty of Law, the study process is organized as follows:

1 cycle of studies (Bachelor) - with the following options:

- General Law (4+1+3);
- International Law and Diplomacy (4+1+3);
- Business Law (3+2+3);
- Public Administration (3+2+3).

2nd cycle of studies (Masters) is organized under the following study sections: General Law, Business Law and Public Administration. General Law study consists of nine focus fields: Civil, Public, Criminal, Business, International, History, Economy, Theory and EU.

2nd cycle of studies lasts one or two years, and upon its successful completion the student is awarded the title Master of Law, with an indication of the focus field of study.

3rd cycle of study (Ph.D. study)

Admission to this cycle of study is open to those candidates that have successfully completed the 2nd study cycle in the area of Law, as well as to other candidates that have successfully completed other related fields of study and have at least 300 ECTS points.

3rd cycle of study is organized with the following modules: General Law, Business Law, and Public Administration. It consists of nine focus fields: Civil, Public, Criminal, Business, International, History, Economy, Theory and EU. Class is organized and lasts for three years for students that have a Master's degree (or equivalent) and have 300 ECTS points. On the basis of Article 6 of the Framework law on higher education, upon successful completion of 3rd cycle studies the academic title of Doctor of Sciences is awarded for a particular focus field of study.

Faculty characteristics

The time of study is a very beautiful time in your life. It is a time that is remembered, a time in which lifelong friendships are formed, a time when you will find out who you are and what you need to know to make it in life. Make sure to choose an institution that will make it so in your example as well. Make sure to choose the University of Travnik Faculty of Law. To make that decision means to choose to spend the most beautiful time of your life enjoying your studying and learning, making friends and future associates, living surrounded by positive energy and support.

We study not for school, but for life! Non scholae, sed vitae discimus!

Faculty of Education

www.eft.ba

Faculty of Education

The Faculty of Education operates in the field of higher education and scientific research in the area of education, pedagogy, psychology, mathematics, computer science, kinesiology, linguistics, literature, journalism, management in sport, management in education and security.

It was founded with the intention to create a new value and meet the needs of society for higher education in the area that has never had an authentic faculty in its centuries-long history. The Faculty of Education is the initiator and carrier of significant changes especially in the field of education, sports and culture in Travnik and Central Bosnia Canton.

The basic starting points of the Curriculum for all study groups result from demands for innovation modeled on similar programs in Bosnia and Herzegovina, neighboring countries and the European Union on one hand, and meeting the contemporary needs of the academic education of students on the other.

The Faculty of Education provides a modern concept of class attendance and student contact with the Faculty from a remote location. Installed Distance Learning software application allows students at the Faculty of Education who are not physically present in the traditional educational environment that they via Internet and other modern information technologies actively participate in the learning process and exchange useful information with teachers, assistants, faculty services and other students.

The Faculty of Education implements a program of instructive classes of the pedagogical-psychological and didactic-methodical group of subjects for candidates who have completed secondary school, college or university school or have graduated from the "non-teaching" universities and colleges in the country and abroad.

Organization of studies

First study cycle – Undergraduate studies

- Pedagogy and Psychology	4 + 1
- Preschool education	4 + 1
- Elementary education	4 + 1
- Mathematics and Computer Science	4 + 1
- General kinesiology	4 + 1
(sport and physical education)	
- Journalism	3 + 2
- Sports management	3 + 2
- Special purposes	3 + 2
(military, police and security)	

1st study cycle – Undergraduate studies end with the presentation of the Final paper after which the candidate obtains the title Bachelor – 180 ECTS or 240 ECTS with addition of the name of scientific field/study program.

2nd study cycle- Graduate studies

- B/H/S Language and Literature	60 ECTS
- Pedagogy and Psychology	60 ECTS
- Preschool education	60 ECTS
- Elementary education	60 ECTS
- Mathematics and Computer Science	60 ECTS
- General kinesiology (sport and physical education)	60 ECTS
- Journalism	120 ECTS/60 ECTS
- Sports management	120 ECTS/60 ECTS
- Special purposes (military, police and security)	120 ECTS/60 ECTS
- Education management	120 ECTS/60 ECTS
- Sport	120 ECTS/60 ECTS

2nd study cycle - Graduate studies end with the presentation of the Master's thesis, after which the candidate obtains the title Master - 300 ECTS with addition of the name of scientific field/study program.

3rd study cycle - Doctoral studies

Doctoral studies are based on research, innovation and academic excellence and designed for the academic education of students who have obtained the title Master of the Bologna cycle - 300 ECTS, and candidates who have obtained the title of Master of Science before the Bologna cycle. Doctorate studies operate within the current programs/courses of the Second study cycle and scientific fields of: EDUCATIONAL SCIENCES (Pedagogy, Elementary education, Management in education), KINESIOLOGY, PSYCHOLOGY, MATHEMATICS, COMPUTER SCIENCES, LINGUISTICS AND LITERATURE. 3rd study cycle - Doctoral studies end with the presentation of Doctoral thesis, after which the candidate obtains the title of the Doctor of Science - 180 ECTS with addition of the name of scientific field/study program.

Faculty characteristics

The teaching process which is accompanied by the latest teaching equipment and teaching aids is carried out by the most respected and most recognized BiH and international scientists. The courses at the Faculty of Education can be attended and actively participated in through the system of distance learning - the Student Information Service!

Practical classes at Faculty of Education take place in prestigious kindergartens, primary and secondary schools, BiH and international media outlets, sports institutions, training centers, specialized sports camps and similar! Professors and assistants of the Faculty of Education are available to students for advice and help during their education 24 hours a day and 7 days a week. Student Services of the Faculty of Education is available for students to contact and get information 24 hours a day and 7 days a week.

Faculty of Education provides special discount opportunities on tuition to best students as well as special opportunities for achieving a professional career in higher education!

The Faculty of Education provides special discount opportunities for best students in the regulation of tuition and special opportunities for achieving a professional career in higher education!

The Student Association - ASEF - provides for active students of the Faculty of Education additional opportunities for the improvement of knowledge and competences in the field of student activism! The Alumni Association brings together exceptional athletes, prominent sports managers, prominent directors of kindergartens and schools, teachers and professors, prominent journalists, prominent military, police and security officers that are all actively involved in additional professional development of undergraduates and graduates of the Faculty of Education.

*If Athens has bad shoemakers, its citizens are going to walk barefoot.
And if it has bad teachers, Athens will perish. Plato*

Faculty of Technical Studies

Aleja konzula no. 5
72270 Travnik
Bosnia and Herzegovina

+387 30 540 876
info@fts.ba
www.fts.ba

Faculty of Technical Studies

Since its establishment in 2006, Faculty of Technical Studies has been developing a dynamic concept of study programs in the field of technical sciences with a unique approach in which technical professions become distinctive, desirable and perspective.

“Committed to Excellence” is the motto of the management of the Faculty of Technical Studies and the concept under which the Faculty develops and creates new values. The mission of the Faculty of Technical Studies is expressed through the education of qualified staff for the needs of technical professions such as: Civil Engineering, Architecture, Graphic Engineering and Design, IT for Engineers, Safety and Protection at work and Fire protection and Textile Engineering and Design who will be competent and competitive in the labor market for taking roles as future engineers, which depending on the degree of academic title, is expected.

The development of the Faculty of technical studies is based on educational tools that are the basis for success in achieving top results, which are: 1st Theoretical knowledge; 2nd educational processes; 3rd practical knowledge. In such a system that is interconnected and conditioned the Faculty of Technical Studies becomes a center for the education of professional scientific staff in the field of technical sciences with practical experiences and examples of good practice through the Scientific and Research work.

Students of the Faculty of Technical Studies have the possibility to decide to work within chosen professions during the study or to steer themselves toward engagement in the academic community of the Faculty. Thanks to the developed concept of own professional drive with the provided markets for the placement of the final product, graduate students can be offered employment, scholarships or other forms of cooperation that will be to mutual satisfaction. This is a unique concept where the Faculty for technical studies stands out compared to others, guaranteeing students a successful future.

Organization of studies

Since its establishment the Faculty applies the standards of the Bologna Process and seeks to achieve its objectives according to the Bologna Declaration. The study is organized in three cycles: undergraduate, graduate / master and doctorate studies.

1st cycle of studies lasts three (3) or four (4) years and is evaluated with 180 or 240 ECTS. Upon completion of the 1st Study Cycle students are awarded an academic title and professional title Bachelor / Engineer of a certain field depending on the chosen field of study.

2nd cycle of studies lasts one (1) or two (2) years depending on the completed 1st cycle. Upon completion of the 2nd Study Cycle students are awarded an academic title of Master of science / Master – Graduate Engineer of a certain field, depending on the chosen field of study.

The total number of ECTS in order to achieve an academic title of Master of science / Master – Graduate Engineer is 300. 3rd cycle/doctorate studies is organized for all the areas in the field of Technical Sciences which are taught in 1st and 2nd cycle.

Doctorate studies last three (3) years and are valued with a total number of 180 ECTS. The Faculty offers students all three study cycles with different models that treat each student individually and place him in the "center of attention" with all its peculiarities, which the Faculty brings when enrolling.

Study programs:

- Architecture (3+2) (4+1)
- Civil Engineering (3+2) (4+1)
- Graphic Engineering and Design (3+2) (4+1)
- IT for Engineers (3+2) (4+1)
- Safety and Protection at Work and Fire protection (3+2) (4+1)
- Textile Engineering and Design (3+2) (4+1)

Faculty characteristics

The academic community of the Faculty consists of professors with a respectable academic biography and a career in higher education in Bosnia and Herzegovina, Europe and the world. The value of the academic community is reflected through investment in young staff, its education, training and practical work with the aim of improvement and development in the direction of the desired state in which the quality is a condition and the excellence is prestige.

The teaching process at the Faculty of technical studies is carried out through three levels. The first level are theoretical knowledge conducted in classrooms, multimedia classrooms, auditoriums, computer room and conference rooms.

The second level is the professional education through the educational center, which consists of computer rooms, studios and professional workshops, depending on the study program. And the third level are professional knowledge that students acquire through professional facilities in which they acquire the skills and competencies through individual, practical work and independent practice that are the basis for work confidence and competitiveness in the labor market. Classes are interactive and performed with modern methods.

The interior of the Faculty measures a total of 5,000 m² of usable, quality space, which exceeds the European and global borders.

The Faculty has a Student online Service (Student Information Service), an online Library, Student Association, mobility and all related services that are at service to students. The Faculty is the organizer of conferences and symposia in the field of study programs and provides support for the participation of professors and students in scientific research and presentation of papers in seminars, symposia and conferences. Students of the Faculty of Technical Studies have the GrafX magazine which presents the work of students in a representative way. Faculty is the publisher of the scientific journal Techno Science.

Technical knowledge is knowledge of the future and therefore step into your future together with us!

Faculty of Pharmacy and Health

Polje Slavka Gavrančića 17C
72270 Travnik
Bosnia and Herzegovina

+387 30 515 770
info@fzf.edu.ba
www.fzf.edu.ba

Faculty of Pharmacy and Health

The Faculty of Pharmacy and Health began working in 2009. The studies are based on the Bologna process, according to the European Credit Transfer System (ECTS).

The mission of the Faculty of Pharmacy and Health is based on the education of future health workers, teachers and scientists as well as on the encouragement and appliance of scientific research.

Our aim is to achieve excellence in education and research in pharmacy, dental medicine, radiology, nursing and general health. The focus is on modern teaching methods, humanity and strict ethical principles.

Organization of studies

Integral studies – 1st + 2nd cycle

- Pharmacy (5+0)
- Dentistry (5+0)

Biomedical studies are traditionally organized as integral studies in European countries, i.e. the first and second cycle are incorporated. There are many reasons, but the most important is the empirical knowledge that dental medicine and pharmacy require comprehensive knowledge of various fields. This is the best way to satisfy all profession principles, ensuring and emphasizing the importance of integrated holistic care of patients. Upon completion of studies, students are awarded the title of Doctor of Dental Medicine (dr.stom.) and Master of Pharmacy (mr.ph.)

Undergraduate studies – first cycle:

- Pharmacy (3+2)
- Radiology (3+2) i (4+1)
- General medical nursing (3+2) and (4+1)
- Physical therapy (4+1)

Upon completion of studies, students are awarded the title Bachelor with reference to a specialization and earned 180 ECTS credits (for three years) and 240 ECTS credits (for four years). The awarded titles are: Bachelor of Pharmacy (180 ECTS), Bachelor of Medical Radiology/Engineer of Medical Radiology 180 ECTS credits; Bachelor of Radiological Technologies 240 ECTS Credits; Bachelor of Medical Nursing 180 ECTS; Bachelor of Health Care and Therapy 240 ECTS, Bachelor of Physical therapy 240 ECTS.

Master studies- 2nd cycle – Lasts 1 or 2 years, depending on the 1st cycle. Upon completion, students are awarded the title Master with reference to a specialization with earned 60 or 120 ECTS credits.

Doctorate studies – 3rd cycle – Upon completion of the 2nd cycle or integral studies, students can enroll in doctorate studies.

Doctorate studies last three years (180 ECTS), the first year being general for all. In the second year, students choose among these modules: Dentistry, Pharmacy, Clinical Medicine and Public Health. The third year implies dissertation research and writing.

Mode of studying: full-time, part-time, distance learning and combination of these modes. Students of Dentistry and Pharmacy are full-time students.

The lectures/classes are interactive and held by teachers with the academic degree of PhD, in positions of associates and full time professors and assistant professors.

Lectures and exercises are held in our building with modern equipment. We have ensured practical and scientific practice in private and state hospitals, pharmacies and famous pharmacological companies in order that our graduates are completely educated to work and apply their knowledge in their profession immediately after graduation.

Faculty characteristics

The Faculty has its own Institute for biomedical research and diagnostics, radiology and dentistry departments, modern classrooms, computer cabinets, cabinet for anatomy, microscopic room as well as modern labs for learning and research. The radiology department is equipped with MRI, CT, densitometer, mammography and ultrasound. Sophisticated analyses and samplings are conducted in the modernly equipped Institute. The Faculty has a fully equipped dentistry department: preclinical facility (modernly equipped preclinical facility with phantom heads, so students can do practical exercises) and clinical facilities and dispensary for different departments (oral surgery, pedodontics, orthodontics, etc). There is also an equipped department for prosthesis including the up-to-date CAD-CAM technology, which is the latest achievement in dental prosthetics.

Upon completion, students acquire practical and theoretical knowledge necessary for the labor market, and the best student is offered a job opportunity.

High quality education on one of the best Faculties of Pharmacy and Health is a guarantee for success and it systematically encourages present and future health workers to lifelong education as well as creation and appliance of evidence-based medicine.

Quality education at one of the leading faculties in the field of health care is a guarantee for success and it systematically encourages current and future medical workers for lifelong education and creation and application of evidence-based medicine.

General information for students

The procedure of enrolment

Enrolment of candidates is based on the procedures prescribed by the competent Ministry of Education and the University of Travnik. During enrolment, results achieved in previous education are taken into consideration. Enrolment in the academic program of the University and its organizational units is very clear in terms of criteria and is based on the success achieved in high school, or on the results of admission examination if organized. The faculties will make decision every year about the mode of admission of students in terms of the organization of admission examinations. Considering the diversity of curricula, the dynamics and procedures of students' enrolment for each organizational unit will be determined separately. The University has a licence for teaching in the official language of Bosnia and Herzegovina, Turkish and English.

Mode of study

Mode of study: full time, part time, distance learning or a combination of these three modes of study, with exception of integrated studies that can be studied only in full time mode due to its' specificity.

Academic calendar

The academic year is divided into winter and summer semester. Classes accompanied by various forms of continuous assessment during the semester last 15 weeks. Lectures in the winter semester start in the first week of October and last until mid-January (winter semester). End of January and half of February in the winter semester are scheduled for testing activities.

The summer semester starts at the beginning of March and teaching activities last until mid-June. The remaining time is scheduled for testing activities, vocational, methodical and pedagogical practices.

Examinations and procedures are prescribed by the Rules of Study for each cycle. Academic calendar lists all the activities planned during the school year as well as all the holidays at the state level.

Information about country and town

Bosnia and Herzegovina, as a territorial and administrative community of two entities, the Federation of Bosnia and Herzegovina and the Republika Srpska and the District Brčko, is on the track to the European integration stream joining the community of European nations – the European Union.

Travnik is a town in central Bosnia, located 90 km west of Sarajevo at an altitude of 514 m. It is the capital city and the administrative headquarters of the Central Bosnia Canton. Travnik has about 30,000 residents. There are three faculties located in Travnik. Faculty of Education and Faculty of Technical Studies are located in the city center at the following address: Aleja konzula 5. Faculty of Pharmacy and Health is located in place Dolac near the city center at the following address: Slavka Gavrančić 17 c. Faculty of Management and Business Economics and Faculty of Law are located in Azapovići - Kiseljak near Sarajevo at the following address: Azapovići 439. Travnik has a rich cultural and historical heritage and is a treasury of historical monuments, cultural buildings and historical persons that made Travnik and Central Bosnia Canton famous.
